Keeping with tradition, newly discovered elements can be named after:

- (a) a mythological concept or character (including an astronomical object),
- (b) a mineral or similar substance,
- (c) a place, or geographical region,
- (d) a property of the element, or
- (e) a scientist.

Groups of the Elements

The periodic table is organized into 18 groups, labeled I through VIII, with Roman numerals and letters (A or B) indicating their classification. Red arrows point to each group label. Group 8 is labeled with a bracket indicating it contains three columns (8, 9, and 10).

THE PERIODIC TABLE OF SUPERHEROES

A periodic table of superheroes arranged in a grid. The grid is shaped like a standard periodic table, with elements represented by comic book-style portraits of various DC and Marvel characters. The characters are arranged in rows and columns, with some elements missing, particularly in the lower right quadrant. The characters include Superman, Wonder Woman, Batman, Flash, Green Lantern, and many others.

PERIODIC TABLE OF MARVEL

A periodic table of Marvel superheroes arranged in a grid. The grid is shaped like a standard periodic table, with elements represented by comic book-style portraits of various Marvel characters. The characters are arranged in rows and columns, with some elements missing, particularly in the lower right quadrant. The characters include Iron Man, Spider-Man, Wolverine, Hulk, and many others.

Key Meat Facts:

- Bacon is the "meat of life." Without bacon, life on earth as we know it could not exist
- Noble Meats are named as such because they rate the highest on the Glanburg "Yumminess Scale." Lowest-ranking meats include Pig's feet, Spam and Roadkill
- Meats occur in two basic forms: boned and boneless
- Basic chemical formulas: H₂B = Bacon Double Cheeseburger; ThReD = Turducken; HaRbT = Cold Cut Trio; HdQH = A Barbeque, FrCiB = Heart attack

The Periodic Table of Tables

-  **Dining Tables**
-  **Outdoor Tables**
-  **Coffee Tables**
-  **Work Tables**
-  **End Tables**
-  **Leisure Tables**
-  **Figurative Tables**

This image shows a large, outdoor periodic table of elements. The table is mounted on a black metal frame and is divided into two main sections. The top section contains elements from Hydrogen (H) to Oganesson (Og), and the bottom section contains elements from Thallium (Tl) to Nihonium (Nh). The elements are color-coded by groups: alkali metals (purple), alkaline earth metals (blue), transition metals (white), metalloids (red), nonmetals (green), halogens (pink), noble gases (light blue), and lanthanides/actinides (orange and yellow).

Top Section: Elements H through Og
